ABSTRACT

A follow-up study was conducted of Yavapai College students who completed a certificate or graduated with a degree in spring 1980 to obtain demographic data and information on the graduates' current status, purpose for enrolling at Yavapai, and views of the college, and on the relationship between their current activities and their coursework at the college. Questionnaires were mailed to 155 program completers and graduates, and 79 responses were received. Study findings indicated: (1) 33.3% of the respondents attended Yavapai to prepare for a job, 35.7% to obtain university transfer credit, 11.9% for personal interest, and 9.5% to improve existing job skills; (2) 46.4% were employed full-time when surveyed, 35.7% were continuing their education, and 9.5% were employed part-time; (3) of the respondents who transferred to another college, 9.5% had difficulties in transferring credit, problems with transcripts, or other problems; (4) 78.8% of the transfer students were studying full-time and 77.7% felt that their community college program had prepared them satisfactorily or excellently for their current program; (5) the average monthly salary of respondents employed full-time was $1,025; and (6) 90.5% of the full-time employees considered their Yavapai training as useful or very useful in performing their current jobs. The study report includes respondent profiles for general education, nursing, occupational/technical, and transfer students; all combined majors; associate in arts students; males; females; and full-time employees. TEX-SIS FOLLOW-UP
Vol. 2, #1
INTRODUCTION

This is the third in a series of reports on student follow-up data collected at Yavapai College. This report contains the analysis of data from completers and/or graduates from the Spring of 1980. The purpose of this follow-up is to get information from former students approximately one year after leaving college. Consequently, questionnaires were mailed in the Fall of 1981. Out of a total of 155 students who either completed with a certificate or graduated with a degree, 79 usable questionnaires were returned for a response rate of 51 percent. Analysis of the data from the questionnaires was undertaken in the Spring of 1982 and completed during the following summer.

As with the OCC/TEC Non-Returning Student analysis, many profiles are produced within a cross-tabulation of the data (computer printout). Profiles are developed based on curriculum code, ethnicity, sex, etc. It is not possible to include every profile in this document; consequently, only those profiles that have received a general expression of interest are contained herein. Upon request, other profiles can be transcribed from the cross-tabulations. See the PROFILE INDEX for a complete listing of all profiles in each cross-tabulation.

One Key Questionnaire profile is contained in Section XI. A Key Questionnaire Run is a cross-tabulation on a subset of the data, in this case, a cross-tabulation on all respondents who indicated they were employed full-time by making an entry in question #2, 39-1. Each cross-tabulation contains a unique set of profiles. There were 39 respondents who indicated they were employed full-time, and their responses to all questions are tabulated in the profile.

The final question on the questionnaire asked for general comments. These comments have been summarized by profile in Section XII. A copy of the questionnaire is located in Section XIV.

HIGHLIGHTS

A summary of some of the main points of interest from follow-up research on our Spring 1980 completers and graduates is contained in this section. In the discussion that follows, comments are restricted to the profiles contained in this document.

1. The primary purposes listed for completing a degree or certificate were job preparation and transfer credit.

2. The majority of responses in the General Education, Nursing and All Occ/Tec Majors profiles indicated present status to be employed, full-time. With the exception of the All U/Trans Majors profile, the remaining profiles showed a fairly even split in present status between employed, full-time and continuing education at a higher level. More than 14 percent of the Male responses indicated present status to be unemployed, while none of the Female responses indicated unemployment for present status.

3. The ratings of courses according to a number of criteria in question A3 proved to be consistently high, i.e., averages generally were in the Good (4) to Very Good (5) range. Of the criteria listed, the use of instructional media received the lowest general ratings; however, these were in the high Neutral (3) and low Good (4) range.

4. Responses to question A4 indicate that many of our college services are fulfilling the needs of our students; however, placement services rank generally lower than the other services, especially in the Nursing and the All Occ/Tec Majors profiles where it was ranked between Neutral (3) and Poor (2). Placement services also ranked lowest on the All Combined Majors, Associate in Arts, Male, Female and Employed, Full-Time profiles. Tutoring Services were ranked low in the Nursing and All Occ/Tec Majors profiles while they ranked a full point higher in the All U/Trans Majors profiles.

5. Most students who have transferred to another college indicated that no transfer problems were encountered. The students who did encounter problems faced transfer credit problems most often. Although the amount of hours that failed to transfer varied, it was generally in the 7-12 credit hour range or less. Most students who have transferred found their Yavapai College preparation to be excellent or satisfactory. Only the Male profile registered less than 70 percent combined excellent and satisfactory and it registered over 61 percent.

6. Responses to question C1, concerning the relationship of current employment to courses completed at Yavapai College, showed some interesting splits in distributions. The majority of respondents in the General Education and All U/Trans Majors profiles were not employed in an occupation related to the courses they took. The exact opposite was true for respondents in the Nursing and All Occ/Tec Majors profiles. The other profiles showed "horseshoe" distributions where there were approximately equal numbers of people either employed in areas directly related or not related at all to the courses they took at this college.

7. At least 80 percent of the respondents in each profile indicated that the training they received at Yavapai College in relation to its usefulness to job performance was Very Good or Good.

8. Except for the Nursing profile, at least 50 percent of the responses from employed respondents on all profiles indicated that courses they took at Yavapai College helped performance on their present job. Except for the General Education and All U/Trans Majors profiles, more than 80 percent of the responses of employed respondents indicated that courses helped obtain a job or helped performance on the present job. On the General Education and All U/Trans Majors profiles, the percentage was 75. Yavapai College courses have helped only a small percentage of people to advance on the job; the highest was 14.3 percent on the Male profile. It may be too early to assess advancement. A high percentage of respondents have indicated that their job performance was improved and many of these people may eventually receive advancement related to the courses they took.

9. Except for the Associate in Arts and Female profiles, the majority of all employed respondents indicated they were making $1200 or more per month. At least 40 percent of the respondents in the two above-mentioned profiles were making $1200 or more per month.

10. Responses to question C6 showed that the overwhelming majority of respondents were not employed in their current occupation prior to enrolling at Yavapai College.

11. Except for the All U/Trans Majors profile, the majority of all employed respondents indicated that the availability of jobs in their occupational areas was Very Good or Good. Of the employed nurses, 84.6 percent indicated the availability of jobs in their area was Very Good.

12. Question D1 asked for information from people whose occupational area was not related to courses completed at Yavapai College. The reason listed most often for respondents in the All U/Trans Majors, All Combined Majors, Associate in Arts, Male, and Female profiles was college transfer. Except for the Nursing profile, responses to this question on the other profiles were mixed. On none of the profiles did any respondents indicate that they found a better paying job in another field.

13. Well over 90 percent of all respondents on all profiles saw the courses they took at Yavapai College as being of immediate, long-term or indirect benefit.

14. There were many comments listed in question D4 and these comments are summarized in section XII. Two particular comments are worthy of note in this section: one because of its frequency of occurance and the other because of its intensity as registered by 3 respondents. First, a number of respondents did indicate that they felt they were ill-advised regarding transfer of credit to the universities in the state. It is apparent from these comments that there is room for concern in the area of advisement. Second, 3 nurses expressed real concern about the need for more clinical experience prior to taking a job. The comments written by these respondents were detailed, informative, and positive.

The results of this survey research are generally positive. Many comments were quite complementary. Beyond what is listed in this section, in the profiles sections and in the comments section, there are many potential uses of this and other follow-up data. For example, primary objectives can now be compared between our completers and graduates and our non-returning students. Information of this type should be of use to counselors, other advisers and those people involved in developing course offerings and possible varied instructional approaches. Second, we now have student characteristics information on our completers and graduates. Information of this type should be of use to counselors, placement and financial aid advisers, and marketing personnel. Third, we have information that can help in the evaluation of instruction by major field and the evaluation of student services. Information of this type should be of use to the administration, academic specialists and student services specialists. Fourth, we have information concerning transfer problems where they existed. Academicians and counselors should review these comments in depth in order to resolve problems of this type for our current students. Fifth, information is available to support program review and evaluation considerations, such as the nursing comments, as well as many other comments.

Administrators and academicians should find this information useful. Sixth, information concerning to the value of courses relative to helping obtain, perform better on or advance in the job should be of use in counseling and recruiting. The availability of jobs as well as salaries earned should be useful information. Finally, we have information on the kind of courses our completers and graduates would like to continue to take at Yavapai College. This information, as well as much of the other above-mentioned information, can be compared with information gathered from non-returning students to assess similarities, as well as differences, in responses.

SECTION D4 COMMENTS

PROFILE COMMENT

GENERAL

- Very well satisfied - 2
- Doing a good job with tools and facilities available
- More occupational or apprentice skill courses
- Better cooperative training in local industry
- Small classes are more beneficial--biggest asset of Y.C.
- More trade classes at night
- Counselors did not seem adequate as far as which classes transfer to universities
- A.A. made a difference in paycheck, although classes were not job related
- Enjoyed classes
- Y.C. is very well organized, informed, and thorough in their procedures
- College experience will always be very beneficial--grateful for limited experience at Y.C.
- Psychology and Sociology studies have been very beneficial
- If I had a complaint, it would not be directed towards the school, but "the system" - THE COST!
- The basics at Y.C. were applicable to job
- Y.C. students should have a curriculum plan for four years for most major programs at their disposal
- The Science faculty is unsurpassable in their ability to excite interest in students
- Y.C. is an excellent school
- A survey should be given at the end or after mid-semester to find out what courses students are looking for next semester
- More night classes offered
- Six- or eight-week workshops should be offered in construction, horticulture, auto mechanics, etc.--people of all ages would benefit to learn do-it-yourself classes
- The Real Estate class was the most effective of courses I have taken; it was interesting and thorough--Mr. Lindquist does a good job

NURSING

- Provide more clinical instruction at the hospital - 3
- Make courses prerequisite so load is lighter
- More clinical experience in specialized area - 2
- Enjoyed Y.C.--size of class and interest of instructors was great

OCC/TEC

- Outstanding and understanding instructors at Y.C.
- Like the small classes and excellent facilities - 2
- Jim Hinton, Joanne Keele, and Ken Abbott are special people
- Took enough classes to get a certificate but never received it

OCC/TEC - Cont'd

- Auto Tech. program is behind the present industry--needs to be updated
- Provide more equipment
- Employ more women teachers
- More on-the-job experience
- Counselors do not seem adequate as far as which classes transfer to universities
- Provide more clinical instruction at the hospital - 3
- Enjoyed Y.C.--size of class and interest of instructors was great
- More clinical experience in specialized area - 2
- Make courses prerequisite so load is lighter

- The Real Estate class was the most effective of courses I have taken; it was interesting and thorough--Mr. Lindquist does a good job

UTRANS

- More personally involved psychology courses--not so text-oriented
- Students should be able to transfer upper level credits to the three Arizona Universities
- Counselors should know which courses do not transfer so students do not have to take them over
- Excellent!
- Y.C. prepared me in Economics, Accounting and Stats the best
- More professional courses during summer semesters
- English courses are okay, but more time needs to be spent on grammar and spelling
- Math courses do not have modular or self-paced learning--have lecture classroom format--have suffered at A.S.U. because of this
- Very satisfied with courses
- Y.C. only offers Intro class for Marketing--some type of Public Relations, etc., should be included at Y.C. if possible
- Science Department is excellent--instructors give so completely of themselves
- Administration and Faculty at Y.C. was great
- Received excellent education at Y.C.
- Teaching staff is excellent
- Courses are fine
- Library lacks information on hand for psychology students
- Counselors could be more aware of preparatory and transferring courses needed for four-year institutions

UTRANS - Cont'd

- Hard to figure the "specifics" of a course when taught in "generalized" terms
- Y.C. is a very good institution--learned a lot and enjoyed it
- Better cooperative training in local industry
- A lot of courses did not transfer but probably that is because I went to an out-of-Arizona college
- The staff truly cares about the individual student
- Education received from the Department of Technology Chairman, Dr. Strom, has been very salutary in the continuing of my higher-level education
- Coach Soesbe is a great guy and coach
- Y.C. is a great place to play baseball--it gets exposure, is in the State Play-Offs, and usually goes to the J.C. World Series
- Wish baseball team good luck every year--just finished first year with a pro team - the Padres!
- Courses were very helpful with job and personal use
- Improve the Math courses--Independent studies are too hard without a tutor or teacher aide
- The atmosphere is great, relaxful, and free, with much emphasis on self-expression
- Great school--academically and socially
- In my opinion, the two most valuable considerations relating to coursework are: 1) the desire by many members of the faculty to present a two-year program equivalent to university education and 2) instructors that are Ph.D.'s (in the Sciences), this is extremely important for students interested in higher education
- Students may face enough junior college prejudice without their own school helping
- Counseling needs to be more thorough--transferred to U. of A. with 35 credit hours and they put me in as a first semester sophomore
- Do not want to have to take courses all over again when transferring to a university
- The basics at Y.C. were applicable to job
- Y.C. students should have a curriculum plan for four years for most major programs at their disposal
- The Science faculty is unsurpassable in their ability to excite interest in students
- Y.C. is an excellent school

ALL COMBINED

- Students may face enough junior college prejudice without their own school helping
- Counseling needs to be more thorough--transferred to U. of A. with 35 credit hours and they put me in as a first semester sophomore
- Do not want to have to take courses all over again when transferring to a university
- Y.C. is very well organized, informed, and thorough in their procedures
- College experience will always be very beneficial--grateful for limited experience at Y.C.
- Psychology and Sociology studies have been very beneficial
- If I had a complaint, it would not be directed towards the school, but "the system" - THE COST!

ALL COMBINED - Cont'd

- Counselors did not seem adequate as far as which classes transfer to universities
- A.A. made a difference in paycheck, although classes were not job-related
- Enjoyed classes
- More personally involved psychology courses--not so text-oriented
- Not enough enrollment--five of desired classes were dropped
- Had problems transferring credits
- One instructor graded all students with the same grade: "C"
- Enjoyed Y.C. very much
- Students should be able to transfer upper-level credits to the three Arizona universities
- Counselors should know which courses do not transfer so students do not have to take them over
- Excellent!
- Y.C. prepared me in Economics, Accounting and Stats the best
- Like small classes and excellent facilities
- More professional courses during summer semesters
- English courses are okay, but more time needs to be spent on grammar and spelling
- Math courses do not have modular of self-paced learning--have lecture classroom format--have suffered at A.S.U. because of this
- Y.C. only offers Intro class for Marketing-some type of Public Relations, etc., should be included at Y.C. if possible
- A lot of courses did not transfer, but probably that is because I went to an out-of-Arizona college
- Science Department is excellent--instructors give so completely of themselves
- Administration and faculty at Y.C. was great
- Received excellent education at Y.C.
- Staff truly cares about the individual student
- Course counseling with more emphasis on individual needs
- Teaching staff is excellent
- Courses are fine
- Library lacks information on hand for psychology students
- Counselors could be more aware of preparatory and transferring courses needed for four-year institutions
- Hard to figure the "specifics" of a course when taught in "generalized" terms
- Y.C. is a very good institution--learned a lot and enjoyed it
- Better cooperative training in local industry
- Counselors did not seem adequate as far as which classes transfer to universities
- Outstanding and understanding instructors at Y.C.
- Jim Hinton, Joanne Keele, and Ken Abbott are special people
- Took enough classes to get a certificate but never received it
- The Auto Tech. program is behind the present industry--needs to be updated
- Provide more equipment
- Employ more women teachers
- More on-the-job experience

ALL COMBINED - Cont'd

- Education received from the Department of Technology Chairman, Dr. Strom, has been very salutary in the continuing of my higher-level education
- Coach Soesbe is a great guy and coach
- Y.C. is a great place to play baseball--it gets exposure, is in the State Play-Offs, and usually goes to the J.C. World Series
- Wish baseball team good luck every year--just finished first year with a pro team - the Padres!
- The basics at Y.C. were applicable to job
- Y.C. students should have a curriculum plan for four years for most major programs at their disposal
- The Science faculty is unsurpassable in ability to excite interest in students
- Y.C. is an excellent school - 2
- A survey should be given at the end or after mid-semester to find out what courses students are looking for next semester
- More night classes offered
- Six or eight week workshops should be offered in construction, horticulture, auto mechanics, etc.--people of all ages would benefit to learn do-it-yourself classes
- The Real Estate class was the most effective of courses I have taken. It was interesting and thorough--Mr. Lindquist does a good job
- Career counselor and financial aid counselor could be better informed, offer wider varieties of information and keep in mind their goal of helping students with all of the information available
- Courses were very helpful with job and personal use
- Improve the Math courses--Independent studies are too hard without a tutor or teacher aide
- The atmosphere is great, relaxful, and free, with much emphasis on self-expression
- Great school--academically and socially
- In my opinion, the two most valuable considerations relating to coursework are: 1) the desire by many members of the faculty to present a two-year program equivalent to university education and 2) instructors that are Ph.D.'s (in the Sciences), this is extremely important for students interested in higher education
- Students may face enough junior college prejudice without their own school helping
- Counseling needs to be more thorough--transferred to U. of A. with 35 credit hours and they put me in as a first semester sophomore
- Do not want to have to take courses all over again when transferring to a university
